

Access controls worksheet - SDR

	Note(s)	Issue(s)	Recommendation(s)
Authorization and authentication	Objective: List 1-2 pieces of information that can help identify the threat: • According to the event log and employee table, Robert Taylor Jr. was responsible for this event. • The event occurred on 10/03/2023 at 8:29:57 AM. • The device used for this event is named 'Up2-NoGud', with an IP address 152.207.255.255	Objective: Based on your notes, list 1-2 authorization issues: • At the time of the event, the user had admin-level access privileges to the system. • This user should have lost admin privileges to the system when they stopped working for the company nearly four years ago.	Objective: Make at least 1 recommendation that could prevent this kind of incident: • File permissions should be regularly audited and compared to the status of employees to ensure that the principle of least privilege is followed at all times. • This is especially vital in regards to employees no longer working for the company, as these individuals pose more of a security risk than other users.
